INSPIRED BY GREAT FOOD AND GREAT PEOPLE

WHAT INSPIRES US TO BE OUR VERY BEST? YOU!

We believe great food brings people together, and the relationships we share feed our inspiration to be the best we can be for one another. Likewise, we've been dedicated for more than a century to supporting those who are not only passionate about creating great food but are inspired by the people they serve and come to know on a daily basis.

Our Promise: Quality, Integrity & Customer Service

Since the beginning, it has been our goal to be the equipment and service partner foodservice and food retail professionals trust and desire most in delivering the very best in quality, integrity and customer service.

- **Quality** in our commitment to delivering the latest in technology innovation coupled with the most dependable, highest performing equipment on the market, designed specifically with our customers' needs in mind.
- **Integrity** in our commitment to supporting our customers with the most highly-trained people who genuinely care about helping them achieve their operational goals.
- **Customer Service** that is second to none when it comes to equipment selection, installation, ongoing maintenance and support.

Our promise is achieved through our continued commitment to our **Pillars of Differentiation:**

Quality & Performance—

We take pride in providing customers with “Best-in-Class” quality and performance and the toughest, most dependable equipment for demanding kitchen environments.

Lowest Total Cost of

Ownership—We are dedicated to providing our customers with the greatest energy and labor efficiencies combined with ongoing maintenance and support to prolong the life of equipment, saving time and money while delivering the highest lifecycle value.

Safety—In addition to ergonomic design for safe, easy operation, our equipment is designed with food safety in mind. Our equipment is easy to clean and routinely outperforms competitors and industry standards (NSF) in the most extreme kitchen environments.

Sustainability—Reducing our carbon footprint and greenhouse gas emissions as well as water and energy consumption is a critical factor in the design and manufacturing of our equipment. We are continuously investing in research and development and introducing technology advancements to meet or exceed industry standards.

Customer Display

HTi & HTm STANDARD FEATURES

- Video capability allowing independent videos to play on operator and customer displays simultaneously
- Intuitive and customizable graphical user interface
- Built-in wireless and wired Ethernet standard
- Best seller keys by scale/department
- Search database by description, key word or PLU number
- Swipe between three screens for operator ease of use
- Flashkeys can be laid out by categories or groups
- Product shelf life by days or hours
- Operator, product, and/or recipe notes
- Onscreen operator manual and tutorial videos
- COOL (country of origin labeling) can be created and modified on the scale
- Ability to require operator login
- Label graphics visible in supervisor mode
- Extensive scale backup in supervisor mode
- System can estimate number of additional records that may be added to the scale
- Default values for the four types of products; Fixed Weight, By Count, Random Weight, and Fluid Ounces
- UPC, EAN 13, EAN 128 Barcodes and GS1 DataBar
- Onscreen alphanumeric keyboard and keypad
- Cassette label loading system provides fast and efficient change of label stock
- Meets federal labeling requirements
- Track operator changes
- Remotely access the scale
- **HTm only features:**
 - ValueMax level compensation
 - CodeChecker printhead health agent
 - On-demand processor
 - AC wireless capability

HTs STANDARD FEATURES

Listed by UL, Certified by NTEP

The HTi and HTm scales offer an optional Linerless Label Cassette with Auto Cutter. The Auto Cutter equipped scales include the same feature functionality as the standard HTi and HTm, plus all the benefits of using linerless labels.

AUTO CUTTER SCALE STANDARD FEATURES

- Linerless label cassette eliminates label backing paper, allows dynamic label sizing
- Patented label cassette allows fast and efficient change of label stock
- Auto Cutter automatically cuts the label without operator intervention
- Unique auto cutter design provides easy access for regular cleaning
- Built-in interlock sensors prevent cutter mechanism from actuating during cleaning and maintenance
- Dynamic sizing uses less label stock per roll, optimizing label inventory
- Change label stock less frequently, reducing downtime
- Eliminate backing paper, promoting sustainability
- Additional options for label customization
- Optional on HTi or HTm scales

HTi-7LH with Auto Cutter

Auto Cutter

Linerless Label Cassette

Listed by UL, Certified by NTEP

STANDARD FEATURES

- Large elevated 14" touch screen display
- Intuitive and customizable graphical user interface
- Built-in wireless and wired Ethernet standard
- Best seller keys
- Search by image, description or PLU number
- COOL (country of origin labeling)
- UPC, EAN 13, EAN 128 Barcodes and GS1 DataBar
- Onscreen keypad
- Cassette label loading system provides fast and efficient change of label stock
- Meets federal labeling requirements
- Remotely access the scale using Hobart specific software
- Goes back to home page when not used for 30 seconds
- Onscreen prompts for ease of use
- Optional barcode scanner

Certified by NSF

**PS40****STANDARD FEATURES**

- Simple touch key operation
- Bright operator and customer backlit displays
- Audible beep response
- 6V 4-amp rechargeable battery comes standard
- Power cord comes standard
- Up to 50 programmable speed keys
- 30 lb. x .01 weighing
- Weight/price/total price displayed to 6 digits
- Small footprint – 13.9"W x 13"L x 4.9"H
- NSF Certified and legal for trade

Certified by NSF

**PR30****PR309****STANDARD FEATURES**

- Full temperature compensating mechanism for stability in environment changes
- Double face dials for readability from both sides of scale
- Two automatic dampeners reducing indicator oscillations for quick reading
- Easy to clean chrome finished housing
- Durable stainless steel pan for easy unloading and cleaning
- **PR30** meets or exceeds weights and measures H-44, Class III requirements
- **PR309** meets weights and measures H-44, Class IV requirements

SERVICE SCALE ACCESS – STAND ALONE SYSTEM

Listed by UL

STANDARD FEATURES

- Large color touch screen display (10.4")
- Flashkeys can be set up by categories or classes
- Go to keys allows user to jump immediately to a location instead of going through a menu tree
- Onscreen help questions and answers
- USB port can support external keyboard
- Functions as a web browser: simply plug into your hard-wired or wireless connection to access the internet or your own custom web site
- PC based architecture
- 1½", 2¼" and 3" wide labels up to 4" length for auto-apply
- Accepts up to 8" long labels for hand application
- Access EPP Printer: 120/60/1, 1.25 Amps, 150 Watts, 26.05 lbs. shipping weight
- Access EPCP Control Panel: 120/60/1, .50 Amps, 65 Watts, 15.9 lbs. shipping weight
- Weigher Capacity: 30 lb. x .01 lb. (30.09 maximum) or 50 lb. x .01 lb. (50.09 maximum)

SERVICE SCALE HTi, HTs HAND WRAP SYSTEM

Listed by UL

STANDARD FEATURES

- Linux operating system
- Ethernet and Wireless are standard (no additional components are necessary)
- 10.1" color touch operator display
- Flash keys and best sellers are easy to add, change and use reducing transaction times
- Intuitive operator display provides smooth, easy and informational navigation

Listed by UL

**STANDARD FEATURES**

- Small footprint to increase useable floor space
- Fully automatic – operator places package into the NGW; weighing, wrapping and labeling is all done automatically
- Integrated scale and label applier to reduce floor space requirements
- Auto off/on timer for heated sealer belt
- Hose-downable just like the meat saw or mixer grinder
- System automatically shuts down when not in use for energy savings
- Label placement in any of the 4 corners with on-screen rotation wheel control
- System allows for 2 way communication remote diagnostics/ monitoring to maximize uptime
- Intuitive operator diagnostics to reduce service calls
- Package range up to 10" L X 16" W X 6" H
- Dual printer models available

MODEL	NGW
WEIGHING	
Capacity	30 lbs. (Manual) 15 lbs. (Automatic mode)
Weighing increments – dual range capable	12 lb. x .005 and 30 lb. x .01 lb
Minimum weight to print	.20 lb
LABELING	
Label Width	1.5", 2.25" and 3.0"
Label Length	1.5" up to 4.0" in .5" inch increments
WRAPPING	
Package Size Width	4.5" minimum, 16" maximum
Length	4.5" minimum, 10.1" maximum
Height	.4" minimum, 6.0" maximum
Wrapping Speed	Maximum of 30 packages per minute
Number of Film Rolls	Up to 2 rolls
Type of Film Used	PVC
Film Thickness	60 gauge minimum, 100 gauge maximum
Film Core Size	3" I.D.
Film Maximum Diameter	9.5" O.D.
Film Widths	15" minimum, 20" maximum
ELECTRICAL	220 (4 wire-2 hot lines, neutral & ground) 60 cycle, 1 phase, 20 amps
SHIPPING WEIGHT	Approximately 1,300 lbs.

Listed by UL

**STANDARD FEATURES**

- **Compact Size** – Requires less floor space, smaller than conventional semi-automatic systems
 - **Package Size Range** – Small 1S tray (5" x 5") up to 12" x 16"
 - **Increases Productivity** – Typical operator can average 14 packages per minute and a second wrap station can be added
 - **Reduce Energy Consumption** – Energy smart wrap station utilizes an on-demand sealing plate
 - **Film Savings** – Wrap station can hold two sizes of film, film brake on wrap station assists in stretching of film
 - **Conveyor Scale** – Scale can be used for manual weighing of prepackaged product, weighs up to 30 lb. x .01 increments
 - **4 Position Swivel Wand** – Label can be rotated in all four directions for merchandising packages in the meat case, manually controlled at the EPP printer
 - **Positive Label Application** – Label is held in position during the transfer from the printer to the package
 - **Left to Right or Right to Left Configurations** – Operator has ease of access in either configuration
 - **Open Design** – Operator has full view of the meat packages
- Dimensions:** System: 5' x 7". CLA: 44.78" long x 25.8" wide x 60.24" high
- Electrical:** CLA: 120/208-240 (3 wire)/60/1 14.5/8.0 amps
- Shipping Weight:** CLA – approximately 300 lbs

NOTES:

1. For all after market parts call Traulsen parts department at 800-825-8220.
2. The above quantities represent the maximum amount of tray slides recommended by Traulsen to achieve best air circulation and refrigeration performance.
3. Optional tray slides are not available for Compact Undercounter and Prep Table models.
4. All Centerline™ by Traulsen accessory kits are pre-packaged for easy installation at the job site.

The “Traulsen Difference” is much more than just a catchy advertising slogan. Rather it aptly sums up our overall philosophy of providing both high-quality and high ownership value in everything we do.

Let’s face it, there are less expensive refrigerators and freezers on the market. However, only the refrigeration equipment works 24/7 in your kitchen, and has the ability to lose \$100’s or \$1,000’s of product in a single day. Then of course there is the inconvenience. If your refrigeration fails it upsets your entire operation, so this is no place for compromises.

Traulsen recognizes this, so we design and build our equipment to really deliver for you in all the vital areas of importance to your business. Durability and reliable operation are just the beginning. They also offer you the benefit of energy efficiency, large storage capacity, ease of use, long equipment life, and a host of value-added features.

But most of all they are designed for performance. After all, temperature maintenance and recovery are absolutely critical to both food safety and controlling food costs, which is what refrigeration is all about. In this we excel, that’s why Traulsen has been the industry leader for eight decades and counting.

Refrigeration System

By combining carefully balanced, high quality components with precise microprocessor controls and careful construction, our systems cycle less often, and offers the energy efficiency you’re looking for while still providing the outstanding reliability and performance your operation needs.

Easy to Use Controls

Traulsen uses “plug & play” microprocessor controls which have no moving parts, are much more precise than typical electromechanical controls, and replace several of the most common failing parts (such as the time clock and temp control), providing far greater reliability.

Concealed Light Switches

Traulsen’s solid door models include a light switch concealed inside every door hinge (even on half-height door models). This operates the interior lights automatically whenever the door is opened, while also protecting the switch from damage during loading and unloading.

Interior Arrangements

Each shelf has a rated capacity of 225 lbs. They span the entire inside width of the cabinet, are mounted on a pin system which does not require tools to remove, and don’t ever need “junior” shelves between them. For convenience, they are installed at the factory.

Condenser Cleaning

Traulsen locates the condenser coil right behind the lift-up louver panel, facing front, making it so easy to access and clean. Most R&A series models come standard with StayClear™ Condenser Coil which has innovative technology that dramatically reduces blockages and the build-up of dirt, keeping the condenser clear.

Metering Device

Use of a TXV allows for better temperature recovery than possible with capillary tube designs. This is especially important during busy lunch and dinner periods where the doors are opened frequently. Your Traulsen unit will recover temperature quickly, keeping your food safe and minimizing shrink.

Heating System

By using large, low watt-density heating elements combined with low velocity fans, Traulsen's hot food holding cabinets offer outstanding performance with limited temperature stratification, most are ENERGY STAR® certified for efficiency, start-up quickly and greatly reduce lifetime service costs.

Warranty Terms

As the first in the industry to offer the three-year parts and labor warranty, we are dedicated to providing the utmost security and confidence to our customers. Traulsen stands behind the performance and durability of its equipment, ensuring reliability in demanding kitchen environments.

Raised Metal Door Liner

Much more durable than those made of plastic, metal door liners are unlikely to ever crack or break. Their raised design protects the gaskets from damage during loading and unloading. As a result, the gaskets will likely have to be replaced less often than those of some other brands.

Metal Construction

The doors are metal. The handles are metal. The breaker caps are metal. There is no plastic seam surrounding the doors or cabinet's front perimeter. There is nothing but high quality metal used throughout.

Cam-Lift Hinge Design

Traulsen uses cam-lift type door hinges. These self-close at up to 90°, have a stay-open feature past 120°, and can be opened past 180° without damage. They are heavy duty and include a lifetime warranty.

Insulation

Traulsen insulates the entire cabinet, including the doors, with at least 2" foamed in place insulation. Not only does this provide superior insulating characteristics, but it also adds significant strength to our already rugged design.

Air-Flow Pattern

Traulsen's clockwise air-flow pattern keeps cold air in and warm air out much better than back to front designs, which tend to spill cold air out on to the floor whenever opened. A key element is our rear biased return air-duct that protects the system from ingesting warm kitchen air whenever the door is opened.

Door Locks

Traulsen's solid door units use only a sturdy cylinder type lock. The door lock catches upon a solid metal lock keeper mounted alongside, providing for a secure door closure. When any Traulsen door is locked closed, it stays closed!

STANDARD FEATURES

- Stainless steel exterior front finish
- Stainless steel exterior door finish
- Anodized aluminum sides (including returns) and interior
- Microprocessor control with LED display
- 115/60/1 voltage, self-contained, with cord and plug attached (208-230/115V 3-section freezers)
- Automatically activated LED light with concealed switch
- -10°F freezer capability (freezers only)
- Self-closing door(s) with stay-open feature and lock(s)
- Magnetic snap-in EZ-Clean door gasket(s)
- Three epoxy coated shelves per section
- Four 6" high casters with brakes
- Automatic, non-electric condensate evaporator
- Lifetime warranty on door hinges & handles
- Three-year parts & labor warranty
- Five-year compressor warranty

REFRIGERATORS PASS-THRU SOLID DOOR & GLASS DOOR MODELS

STANDARD FEATURES

- High quality stainless steel exterior front and door(s)
- Corrosion resistant anodized aluminum one-piece sides
- Durable anodized aluminum interior
- Microprocessor control with LED display
- Top-mounted, balanced, self-contained refrigeration system (remote options available)
- Large evaporator coil outside the food zone
- Load-sure guard protects against improper loading
- Full or half height stainless steel door(s) or glass door(s) with lock(s)
- Self-closing door(s) with stay-open feature at 120 degrees
- Guaranteed for life cam-lift hinges
- Guaranteed for life horizontal work flow door handle(s) (solid doors)
- Automatically activated LED lights
- Damage resistant stainless steel breaker caps
- Three (3) adjustable epoxy coated shelves on pins per section
- Energy saving automatic non-electric condensate evaporator
- Magnetic snap-in EZ-Clean door gasket(s)
- Gasket-protecting anodized aluminum door liner
- Anti-condensate door perimeter heaters
- Thermostatic expansion valve metering device provides quick refrigeration recovery times
- Stainless steel one-piece louver assembly
- 9' NEMA cord & 5-15P plug attached
- Set of four (4) 6" high casters with brakes
- Three-year parts & labor warranty
- Five-year compressor warranty

G23ACC-SHLF7	3 Clear Coated Shelves on Pins
G23ACC-SHLF8	3 Clear Coated Shelves on Pilasters

*Not available with heated cabinets

THREE SECTION MODELS

LEFT AND RIGHT SECTIONS	
G23ACC-TK1LR	8 Pairs #1 Tray Slides
G23ACC-TK2LR	2 Pairs #4 Tray Slides
G23ACC-TK4LR	7 Pairs Universal Tray Slides
G3ACC-BTL5-LR*	Bottle Shelf Kit, 5 Shelves with Mounting Hardware (Glass Door Models Only)
LEFT SECTION	
G23ACC-SHLF1	3 Epoxy Coated Shelves on Pins
G23ACC-SHLF2	3 Epoxy Coated Shelves on Pilasters
G23ACC-SHLF3	3 Clear Coated Shelves on Pins
G23ACC-SHLF4	3 Clear Coated Shelves on Pilasters
CENTER SECTION	
G3ACC-TK1C	8 Pairs #1 Tray Slides
G3ACC-TK2C	2 Pairs #4 Tray Slides
G3ACC-TK4C	7 Pairs IRS Universal Tray Slides
G3ACC-SHLF5	3 Epoxy Coated Shelves on Pins
G3ACC-SHLF6	3 Epoxy Coated Shelves on Pilasters
G3ACC-SHLF7	3 Clear Coated Shelves on Pins
G3ACC-SHLF8	3 Clear Coated Shelves on Pilasters
G3ACC-BTL5-C	Bottle Shelf Kit, 5 Shelves with Mounting Hardware (Glass Door Models Only)
RIGHT SECTION	
G23ACC-SHLF5	3 Epoxy Coated Shelves on Pins
G23ACC-SHLF6	3 Epoxy Coated Shelves on Pilasters
G23ACC-SHLF7	3 Clear Coated Shelves on Pins
G23ACC-SHLF8	3 Clear Coated Shelves on Pilasters

*Requires 2 kits to outfit both left and right sections

ADDITIONAL SHELVES, TRAY SLIDES & SUPPORTS

ONE SECTION MODELS	
G1ACC-SHLF5	1 Epoxy Coated Shelf with Pins & Clips
G1ACC-SHLF6	1 Clear Coated Shelf with Pins & Clips
G12ACC-BTL1	Bottle Shelf Kit, 1 Shelf with Clips (Mounting Hardware not Included)
TWO SECTION MODELS	
G23ACC-SHLF9	1 Epoxy Coated Shelf with Pins & Clips, Left Section
G23ACC-SHLF10	1 Clear Coated Shelf with Pins & Clips, Left Section
G23ACC-SHLF11	1 Epoxy Coated Shelf with Pins & Clips, Right Section
G23ACC-SHLF12	1 Clear Coated Shelf with Pins & Clips, Right Section
THREE SECTION MODELS	
G23ACC-SHLF9	1 Epoxy Coated Shelf with Pins & Clips, Left Section
G23ACC-SHLF10	1 Clear Coated Shelf with Pins & Clips, Left Section
G3ACC-SHLF15	1 Epoxy Coated Shelf with Pins & Clips, Center Section
G3ACC-SHLF16	1 Clear Coated Shelf with Pins & Clips, Center Section
G23ACC-SHLF11	(1) Epoxy Coated Shelf with Pins & Clips, Right Section
G23ACC-SHLF12	(1) Clear Coated Shelf with Pins & Clips, Right Section

EZ-CHANGE KITS

ONE & THREE SECTION MODELS (center only) (kits accommodate one half section)	
G13ACC-1EZ	4 Pairs #1 Tray Slides with Pilasters
G13ACC-UEZ	3 Pairs Universal with Pilasters
G13ACC-HDUEZ	3 Pairs Heavy Duty Universal with Pilasters
TWO & THREE SECTION MODELS (left & right only) (kits accommodate one half section)	
G23ACC-1EZ	4 Pairs #1 Tray Slides with Pilasters
G23ACC-UEZ	3 Pairs Universal with Pilasters*
G23ACC-HDUEZ	3 Pairs Heavy Duty Universal with Pilasters*
OTHER ACCESSORY KITS	
GSACC-1EZ	1 Pair #1 EZ Tray Slides
GSACC-UEZ	1 Pair Universal EZ Tray Slides*
GSACC-HDUEZ	1 Pair Heavy Duty Universal EZ Tray Slides*

* Only standard universal tray slides available for 2 section G-Series heated cabinets.

TRAY SLIDES

DESCRIPTION	SPACING			
#1 TRAY SLIDES (NOT AVAILABLE FOR 2 SECTION G HEATED)*				
16 ga. stainless steel angle type for bottom support of: (1) 18" x 26" Pan or (2) 14" x 18" Pans	2"	3"	4"	5"
Behind full height door – all models	28	19	14	11
Behind upper half height door – all models	13	9	7	5
Behind lower half height door – all models	13	9	7	5
#1 Tray Slides – EZ-Change Interior (Not available for 2 section G Heated)*	2"	4"		
Behind full height door – all models	26	13		
Behind half height door – all models	12	6		
#4 TRAY SLIDES – STANDARD (NOT AVAILABLE FOR 2 SECTION G HEATED)*				
Plated steel rod type for rim support of: (1) 18" x 26" Pan (One pair of #4 tray slides accommodates one half section)	1-1/2"			
Behind full height door – all models	38			
Behind upper half height door – all models	18			
Behind lower half height door – all models	18			
UNIVERSAL TRAY SLIDES – STANDARD				
16 ga. stainless steel angle type for bottom support of: (1) 18" x 26" Pan or (2) 14" x 18" Pans or (2) 12" x 20" Pans (For heated cabinets reduce available number of tray slides by 1 (full door and the upper section of a half-door))	4"	5"	6"	
Behind full height door – all models	14	11	9	
Behind upper half height door – all models	6	5	4	
Behind lower half height door – all models	7	5	4	
Universal Tray Slides – EZ-Change Interior (Not available for 2 G Section Heated) (For heated cabinets reduce available number of tray slides by 1 (full door and the upper section of a half-door))	2-1/4"		4-1/2"	
Behind full height door – all models	22		11	
Behind half height door – all models	11		5	
Heavy-Duty Universal Tray Slides – EZ-Change Interior* (For heated cabinets reduce available number of tray slides by 1 (full door and the upper section of a half-door))	4-1/2"		9"	
Behind full height door – all models	10		5	
Behind half height door – all models	5		2	

SHELVES (SOME SHELVES ARE NOT AVAILABLE FOR G HEATED)

CAPACITY	STD.	MAX.
Behind full height door mounted on standard shelf pins	3	9
Behind half height door mounted on standard shelf pins	3	8
Behind full height door mounted on optional pilasters	3	13 (4" spacing)
Behind half height door mounted on optional pilasters	3	12 (4" spacing)

NOTES:

- For all after market parts call Traulsen parts department 800-825-8220.
- The above quantities represent the maximum amount of tray slides recommended by Traulsen to achieve best air circulation and refrigeration performance.
- Optional tray slides are not available for Compact Undercounter and Prep Table models.
- EZ-Change Interior Universal Tray Slides max weight 75 lbs. EZ-Change Heavy Duty Universal Tray Slides max weight 125 lbs.*
- #1, #4, universal and HD Universal EZ-Change tray slides are not available for 2 section G-Series heated cabinets.*
- All G-Series accessory kits are pre-packaged for easy installation at the job site.

STANDARD FEATURES

- Stainless steel exterior
- Stainless steel interior (R-Series)
- Anodized aluminum interior (A-Series)
- Smart Control with LED display
- Self-contained, balanced refrigeration system (refrigerators & freezers) (remote options available)
- Standard operating temperature 34°F to 38°F (refrigerators), 0°F to -5°F (freezers), 135°F to 180°F (hot food cabinets)
- Self-closing door(s) with stay-open feature
- Magnetic snap-in EZ-Clean door gasket(s)
- Automatic non-electric condensate evaporator (refrigerators & freezers)
- StayClear™ condenser standard on most reach-in models
- Three coated shelves per section
- Automatically activated LED lights (incandescent lights on hot food cabinets)
- Stainless steel breaker caps
- Four 6" high adjustable stainless steel legs
- Remote Glycol applications (refrigerator & freezer only, consult factory)
- Wine temperature application option (dual temps, "W" & "N" width models only)
- Lifetime warranty on door hinges & handles
- Three-year parts & labor warranty
- Five-year compressor warranty

Refrigeration System

By combining carefully balanced, high quality components with precise microprocessor controls and careful construction, our systems cycle less often, and offer the energy efficiency you're looking for while still providing the outstanding reliability and performance your operation needs.

Please refer to energystar.gov to view the most up-to-date product listing and performance data.

Heating System

By using large, low watt-density heating elements combined with low velocity fans, Traulsen's hot food holding cabinets offer outstanding performance efficiency, start up quickly, and greatly reduce lifetime service costs.

Please refer to energystar.gov to view the most up-to-date product listing and performance data.

All R-Series models are also available in the Traulsen A-Series which is identical to the R-Series, however, the A-Series models are built with an anodized aluminum cabinet interior.

STANDARD FEATURES

REFRIGERATORS GLASS DOOR COMPACT UNDERCOUNTER MODELS

STANDARD FEATURES

- Stainless steel exterior front, top, sides & glass door(s)
- Anodized aluminum interior
- Electronic control
- 115/60/1 voltage, self-contained, with cord & plug attached
- Self-closing door(s) with stay-open feature
- Magnetic snap-in EZ-Clean door gasket(s)
- Two powder-coated shelves per door on pilasters
- Four or six 4" high casters
- Automatic, non-electric condensate evaporator
- Three-year parts & labor warranty
- Five-year compressor warranty

UHG48LR-0420

Please refer to energystar.gov to view the most up-to-date product listing and performance data.

STANDARD FEATURES

- Stainless steel exterior front, sides and door(s)
- Stainless steel pan cover with pivoting front lid
- Anodized aluminum interior
- Full compliment of sixth size 4" deep plastic pans and divider bars included
- Reversible, full-length nylon cutting board
- 6" deep pan capacity
- Electronic control
- Meets NSF 7 Standard for prep tables
- 115/60/1 voltage, self-contained, with cord and plug attached
- Self-closing door(s) with stay-open feature
- Magnetic snap-in EZ-Clean door gasket(s)
- Two powder coated shelves per door
- 4" high casters
- Automatic non-electric condensate evaporator
- Three-year parts & labor warranty
- Five-year compressor warranty

UST27 Drawer Model

NOTE: All models available with optional R290 refrigerant if needed.

STANDARD FEATURES

- Stainless steel exterior and interior
- Top mounted removable self-contained refrigeration system
- Forced air refrigeration system
- Accomodates 13" x 13" crate(s) 8, 12 or 16 capacity or 13" x 18" crate(s) 4, 6 or 8 capacity
- Single or double access models
- Sliding lift up and down door(s)
- Reinforced cabinet exterior bottom with dunnage rack
- Lockable insulated door(s)
- Electronic control
- Metal door handles
- Magnetic snap-in EZ-Clean gasket(s)
- 9' cord and plug attached
- Set of four (4) 6" or 4" factory mounted adjustable casters (6 for 58" models)
- Three-year parts & labor warranty
- Five-year compressor warranty

STANDARD FEATURES

- Stainless steel front, sides, door(s) and interior
- Microprocessor control with LED display
- Self-contained balanced refrigeration system
- Standard operating temperature 34°F to 38°F
- Automatic, condensate evaporator
- Two coated shelves per section
- Magnetic snap-in EZ-Clean door gasket(s)
- 6" high adjustable stainless steel legs on adjustable channel
- Three-year parts & labor warranty
- Five-year compressor warranty
- All door(s) provided with locks

Insulation

Traulsen insulates the entire cabinet, including the doors, with at least 2" foamed in place insulation. Not only does this provide superior insulating characteristics, but it also adds significant strength to our already rugged design.

REFRIGERATORS & FREEZERS EQUIPMENT STANDS

(Traulsen's Equipment Stands are solely intended for use with cooking equipment.)

STANDARD FEATURES

- Stainless steel exterior and interior
- Stainless steel Marine top
- Microprocessor control with LED display
- Self-contained balanced refrigeration system
- Standard refrigerator operating temperature 34°F to 38°F; standard freezer operating temperature 0°F to -5°F
- Automatic, condensate evaporator
- Self-closing drawers with stay-open feature
- Magnetic snap-in EZ-Clean door gasket(s)
- Accommodates 500 lbs. per section
- Each drawer accommodates 6" deep pans
- 4" high casters on adjustable caster channel
- Three-year parts & labor warranty
- Five-year compressor warranty

TS048HT
 (shown with optional composite cutting board)

TS072HT

TS090HT

STANDARD FEATURES

- Stainless steel exterior and interior
- 115/60/1 voltage, self-contained, with cord and plug attached
- Microprocessor control with LED display
- Accommodates industry standard full and third size pans without the use of adapter bars
- Two (2) shelves per section
- 6" high casters on adjustable channel mounting system
- All door(s) provided with lock(s)
- Left hand system only
- Self-closing door(s) with stay-open feature
- Gasket-protecting stainless steel door liner
- Temperature rail equipped with drain and flush valve
- Automatic non-electric condensate evaporator
- Three-year parts & labor warranty
- Five-year compressor warranty

"All-Day" Temperature Performance to NSF 7 Test Requirements

Traulsen's full size prep table is equipped with TempAssure™, a specially engineered forced air design which circulates cold air around and underneath the pans as well as lofting a protective blanket over the food surface, effectively insulating it from warm kitchen air.

Glycol

TB091SL3S

STANDARD FEATURES

- Glycol system exceeds NSF 7 requirements by maintaining food at or below 39° using specified 8" deep pans 24/7
- Stainless steel exterior & interior finish
- 115/60/1 voltage, self-contained, with cord and plug attached
- Horizontal finned T6 anodized chiller plates, holds 1/3, 1/6, or 1/9 size pans up to 8" deep (pans supplied by others)
- General fit 7.6" chiller bar spacing
- Compressor compartment right side
- Stainless steel lift-off night cover
- Sloped rail
- 14" white poly cutting board (2 row pan rail models)
- 8" white poly cutting board (3 row pan rail models)
- 20" stainless steel door(s), left or right hinge option
- Self-closing door(s) with stay-open feature
- Metal door handle with gasket guard
- Magnetic snap-in door gasket(s)
- Two (2) shelves per section, on pilasters
- Expansion tank
- Heat exchanger and pump closely located from and in communication with refrigeration controls
- Thermostatic expansion valve metering device
- 6" high casters
- 9' cord & plug attached
- Three-year parts & labor warranty
- Five-year compressor warranty

BLAST CHILLERS UNDERCOUNTER, REACH-IN & ROLL-IN / ROLL-THRU

STANDARD FEATURES

- Probe chill start
- Four operating modes
- Touch screen control with automatic or manual operation
- USB data exchange
- On-board printers
- Chill by time or temp
- Product recall
- Dual condensing units (excludes TBC5)
- Three removable small diameter probes
- Metal breakers
- Lifetime warranty on door hinges & handle(s)
- Three-year parts & labor warranty
- Five-year compressor warranty

Press-and-Go
Convenience

EZ-Open Foot Pedal

This ergonomically-friendly option, is offset from the door and positioned close to the floor. To open your cabinet, simply press the pedal with the ball of your foot.

By adding the EZ-Open Foot Pedal to your cabinet, you can:

Reduce Spills – Product can be secured with both hands minimizing the possibility of contact with a moving door.

Support Sanitation Efforts – Fewer spills reduce the possibility of cross-contamination. Reduces contact with frequently touched door handles.

Enjoy Ease of Access – EZ-Open Foot Pedal compliments our standard stay-open door feature.

EZ-Change Interiors

With this option, pilasters can quickly and easily be placed over your unit's side-mounted shoulder screws and moved into place . . . by hand and without tools. Also, the 16-gauge stainless steel tray slides simply drop into labeled grooves to ensure proper alignment.

By adding the EZ-Change Interiors to your unit, you can:

Enjoy Time-Saving Versatility – Quick, no-tools reconfiguration helps you create the space you need, when you need it.

Minimize Spills – EZ-Change tray slides hold up to 100 pounds without bending. For big jobs, consider our heavy-duty tray slides which support up to 150 pounds of product.

Support Sanitation Efforts – All pilasters are dishwasher-safe.

EZ-Clean Gasket

Fits most hot and cold Traulsen units. Our gasket works with your team supporting food quality and safety.

The EZ-Clean Gasket in your Traulsen unit:

Supports Sanitation Efforts – Unlike others available on the market, the EZ-Clean Gasket has a one fold or “bellow” design, which facilitates finding and eliminating dirt and mold.

Saves Time and Effort – Quick cleaning with just the use of sanitizer and a wash cloth. No additional tools required.

Reduces Replacement Costs – Independent lab testing indicates a lifespan increase of at least 50% over standard PVC gaskets.

StayClear™ Condenser (standard on most R & A Models)

When adding this option, you can install your cabinet with minimal concern about missed condenser cleanings. In fact, test lab research indicates that you may never have to clean this coil. Ever!

In relation to compressor performance, the StayClear™ Condenser Coils' efficiency remains consistent because under typical commercial conditions it never needs to be cleaned.

By choosing a StayClear™ Condenser Coil for your cabinet, you can:

Enjoy Ease of Maintenance – Without fins, dust and dirt have virtually no surface area to cling to making regular coil cleanings unnecessary.

Save Money – In energy savings alone, the addition of the StayClear™ Condenser Coils pay for themselves within about the first two years of use (based on \$.11/kWh, under typical commercial kitchen conditions).

Preserve Factory Performance – Compressors work harder when air flow is inhibited by dirty condenser coils. StayClear™ Condenser Coils facilitate ample air flow passage into the condenser while extending your compressor's life.

Tray Slides

Kool Klad Decor

Correctional Application

Additional Shelves

Drawers in Lieu of Doors

Flanged Legs

Options for R & A Series Reach-In/Pass-Thru

Additional Plated Shelves

Add up to a total of nine plated shelves (8 on half-door models) per section on pins (except 1-section dual-temp models), and up to 13 (12 on half-door models) if mounted on optional pilasters at 4" spacing.

Stainless Steel Shelves

Ideal for when jobsite conditions require an alternative to standard plated shelves.

#1 Tray Slides

16 gauge stainless steel angle type tray slides for bottom support of either one 18" x 26" pan or two 14" x 18" pans.

#4 Tray Slides

Plated steel rod type tray slides mounted on a steel frame for rim support of 18" x 26" pans. **Each pair can accommodate a maximum of 18 pans at 1-1/2" increments**, and equips one half cabinet section (actual pan capacities may vary depending upon cabinet type and door size).

Universal Tray Slides

16 gauge steel angle type tray slides for bottom support of one 18" x 26", two 14" x 18" or two 12" x 20" pans.

Reach-In Drawers

Replace the bottom half door with two or three drawers for convenient pan storage on freezers.

6" or 4⁵/₈" High Casters

Set of four, plate type casters, two with locks, mount easily at the bottom of any Traulsen reach-in or pass-thru model, allowing them to be moved on-site for easy cleaning underneath.

Locking Hasp(s)

Available in both single or double styles (depending upon model and door hinging), allows you to secure your valuable foodstuff with a simple padlock.

Kool Klad Laminate Decor

Match your kitchen decor from among the many colors of the Wilsonart® rainbow (other manufacturer's laminates also available).

6" High Flanged Legs

Allows your Traulsen model to be secured to the floor, when required for seismic and marine applications.

Correctional Application Package

Combines several features to secure cabinet for use in a corrections facility.

Options for TU & TE Models

Flat Stainless Steel Top

Provides a flat work surface on top of any full-size undercounter. Note that an optional stainless steel top is required if it is being used to support equipment weighing in excess of 100 lbs. or producing heat in excess of 140°F to the top surface. Similar tops with either a Drip Guard Edge or Backsplash are also available. Equipment stand models are supplied standard with a stainless steel marine top with drip guard edge.

**Drawers In Lieu Of Doors****6" High Casters or Legs****6" Cabinet Extension Section****Flat Stainless Steel Top****Single Locking Hasp****Special Roll-In Rack for TBC1H & TBC2H****Stainless Steel Back**

Provides a finished look for any full-size undercounter or equipment stand when not placed against a wall.

Cabinet Extension Sections

Allows you to extend the width of your equipment stand by 6".

Drawers In Lieu of Doors

Full-size undercounters can be modified to replace one door with two or three drawers.

Doors In Lieu of Drawers

Equipment stand models can be modified to replace two drawers with one door.

#1 Tray Slides

16 gauge stainless steel angle type tray slides for bottom support of either one 18" x 26" pan or two 14" x 18" pans.

Additional Plated Shelves**Universal Tray Slides**

16 gauge steel angle type tray slides for bottom support of one 18" x 26", two 14" x 18" or two 12" x 20" pans.

6" High Casters

Set of six or eight, plate type casters, half with locks, mount easily at the bottom of any Traulsen full-size undercounter, allowing them to be moved on-site for easy cleaning underneath.

Options for Blast Chill Models**Condensate Evaporator Kits**

Choose from 208V bottom-mounted (model TBC13 only) and 115V floor mounted (models TBC1H, TBC1HR, TBC2H and TBC2HR only).

Stainless Steel Back for TBC5**Special Roll-In Rack for TBC1HR & TBC2HR**

Purchase a rack specifically designed to facilitate the air-flow pattern of your Traulsen roll-in or roll-thru blast chiller. Accommodates twenty-six 12" x 20", thirteen 18" x 26" or twenty-six 14" x 18" pans.

Options for TS Series – Full Size Prep Table Models**Cutting Boards**

Choose your prep surface—composite wood or white vinyl. Both board materials are the highest quality, durable and easy to clean.

Shelf for Scale

Ideal when what you're putting together calls for more precise food measurement.

Top Shelf

It's the perfect place to keep spices and other non-refrigerated ingredients within easy reach.

Garnish Rack

Using our optional garnish rack, give your food that final touch without getting your work surface dirty.

U.S. DOMESTIC WARRANTY (V. 100215)

For sales of Traulsen refrigeration equipment ("Equipment") within the United States, Traulsen warrants to the original purchaser of the Equipment ("Purchaser") that Traulsen will convey the Equipment free and clear of all liens, security interests, and encumbrances created by, through or under Traulsen. Traulsen further warrants that for a period of three (3) years from the later of either (a) the date of delivery to the common carrier or (b) the date of installation (the "Domestic Warranty Period") but in no event, shall the Domestic Warranty Period commence later than 3 months from the date of delivery to the common carrier unless otherwise agreed upon by the parties in writing, under normal use and given proper installation and maintenance as determined by Traulsen, the Equipment: (a) will conform to the specifications as provided by Traulsen ("Specifications") and (b) will be free from substantial defects in material and workmanship.

The warranty period for compressors shall extend for an additional two (2) years beyond the Domestic Warranty Period. In the case of a nonconforming compressor, Traulsen shall provide a replacement compressor; however, all installation, recharging, and repair costs shall be the responsibility of Purchaser. In the case of a nonconforming part, Purchaser must return the part to Traulsen within 30 days from the date of repair. Failure to return a claimed defective part to Traulsen within the 30 days will waive the right to the warranty claim.

Additionally, Traulsen provides a lifetime warranty on the housing of cam-lift hinges and the workflow handles. In the case of a non-conforming housing for cam-lift hinge or workflow handle, Traulsen shall provide a replacement part; however, Purchaser shall be responsible for any other replacement costs, including but not limited to installation and labor.

The Domestic Warranty does not apply to: (a) consumable components or ordinary wear items; (b) components that are removable without the use of tools including but not limited to gaskets, shelf pins, and light bulbs; (c) use of the Equipment components or parts not supplied by Traulsen or specified by Traulsen in the Operator's Manual as set forth on Traulsen's website; or (d) damage resulting from fire, water, burglary, accident, abuse, misuse, transit, acts of God, terrorism, power surges, improper installation, or repairs or installation by unauthorized third parties. Additionally, the Equipment is intended only for commercial use and should not be used by consumers or households or in any non-commercial application. This Domestic Warranty does not apply to, and shall not cover, any Equipment that is installed or used in any way in any residential or non-commercial application. No warranties, express or implied, are provided to any residential, consumer or non-commercial purchaser or owner of the Equipment.

For Traulsen units purchased for use with a condenser provided by a third-party, this standard warranty will apply only to those components contained within the unit to the point of connection of the refrigeration lines leading to the third-party condenser.

In the event of a breach of the warranties set forth above (the "Domestic Warranty"), Traulsen will, at Traulsen's option and as Purchaser's sole remedy, repair or replace, including labor costs, any nonconforming Equipment, provided that (a) during the Warranty Period Traulsen is promptly notified in writing upon discovery of the nonconformance with a detailed explanation of any alleged deficiencies; (b) Traulsen is given a reasonable opportunity to investigate all claims; and (c) Traulsen's examination of any alleged defective part confirms such alleged deficiencies and that the deficiencies were not caused by misuse, neglect, improper installation, unauthorized alteration or repair or improper testing. Traulsen reserves the right to, at its request, require Purchaser shall ship the alleged defective part to Traulsen for inspection and confirmation of defect. No Equipment may be returned without Traulsen's approval.

Purchaser is solely responsible for determining if Equipment is fit for a particular purpose and suitable for Purchaser's application. Accordingly, and due to the nature and manner of Traulsen's Equipment, Traulsen is not responsible for the results or consequences of use, misuse, or application of its Equipment.

THIS DOMESTIC WARRANTY SETS FORTH THE EXTENT OF TRAUlsen'S LIABILITY FOR SALES WITHIN THE UNITED STATES. EXCEPT AS SET FORTH ABOVE, TRAUlsen MAKES NO WARRANTY OR REPRESENTATION OF ANY KIND, EXPRESS OR IMPLIED (INCLUDING NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE). IN NO EVENT WILL TRAUlsen'S LIABILITY IN CONNECTION WITH THE AGREEMENT OR SALE OF THE EQUIPMENT EXCEED THE PURCHASE PRICE OF THE EQUIPMENT AS TO WHICH THE CLAIM IS MADE. IN NO EVENT SHALL TRAUlsen BE LIABLE FOR ANY LOSS OF USE, LOSS OF PRODUCT, LOSS OF PROFIT, OR ANY OTHER INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THIS WARRANTY EVEN IF TRAUlsen HAS BEEN NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

EXPORT WARRANTY (v. 100215)

For sales of Traulsen refrigeration equipment ("Equipment") outside of the United States, Traulsen warrants parts only, not labor to the original purchaser of the Equipment ("Purchaser") that Traulsen will convey the Equipment free and clear of all liens, security interests and encumbrances created by, through or under Traulsen. Traulsen further warrants that for a period of one (1) year from the date of delivery to the common carrier (the "Export Warranty Period") unless otherwise agreed upon by the parties in writing, under normal use and given proper installation and maintenance as determined by Traulsen, the Equipment: (a) will conform to the Specifications as provided by Traulsen; and (b) will be free from substantial defects in material and workmanship. It is the end user's responsibility to arrange for the export shipping.

The Export Warranty does not apply to: (a) consumable components or ordinary wear items; (b) components that are removable without the use of tools including but not limited to gaskets, shelf pins, and light bulbs; (c) use of the Equipment components or parts not supplied by Traulsen or specified in the Operator's Manual as set forth on Traulsen's website; or (d) damage resulting from fire, water, burglary, accident, abuse, misuse, transit, acts of God, terrorism, power surges, improper installation, or repairs or installation by unauthorized third parties.

For Traulsen units purchased with a condenser provided by a third-party other than Traulsen, this standard warranty will apply only to those components contained within the unit to the point of connection of the refrigeration lines leading to the to the third-party condenser.

In the event of a breach of the warranties set forth above (the "Export Warranty"), Traulsen will, at Traulsen's option and as Purchaser's sole remedy, repair or replace, but not including labor, freight, export costs, packaging costs, any nonconforming Equipment, provided that (a) during the Export Warranty Period Traulsen is promptly notified in writing upon discovery of such nonconformance with a detailed explanation of any alleged deficiencies; (b) Traulsen is given a reasonable opportunity to investigate all claims; and (c) Traulsen's examination of such piece of Equipment defective part confirms the alleged nonconformity and that the nonconformities were not caused by misuse, neglect, improper installation, unauthorized alteration or repair or improper testing. Traulsen reserves the right to, at its request, require Purchaser shall ship the alleged defective part to Traulsen for inspection and confirmation of defect. No Equipment may be returned without Traulsen's approval.

Purchaser is solely responsible for determining if Equipment is fit for a particular purpose and suitable for Purchaser's application. Accordingly and due to the nature and manner of Traulsen's Equipment, Traulsen is not responsible for the results or consequences of use, misuse, or application of its Equipment.

THIS EXPORT WARRANTY SETS FORTH THE EXTENT OF TRAUlsen'S LIABILITY FOR SALES OUTSIDE THE UNITED STATES. EXCEPT AS SET FORTH ABOVE, TRAUlsen MAKES NO WARRANTY OR REPRESENTATION OF ANY KIND, EXPRESS OR IMPLIED (INCLUDING NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE). IN NO EVENT WILL TRAUlsen'S LIABILITY IN CONNECTION WITH THE AGREEMENT OR SALE OF THE EQUIPMENT EXCEED THE PURCHASE PRICE OF THE EQUIPMENT AS TO WHICH THE CLAIM IS MADE. IN NO EVENT SHALL TRAUlsen BE LIABLE FOR ANY LOSS OF USE, LOSS OF PRODUCT, LOSS OF PROFIT, OR ANY OTHER INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THIS WARRANTY EVEN IF TRAUlsen HAS BEEN NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

LEGACY+® SERIES – OPTIONAL ATTACHMENTS AND ACCESSORIES

9" VEGETABLE SLICER

Available with adjustable slicer plate, grater plate and 3/32", 3/16", 5/16", and 1/2" shredder plates. Burnished aluminum finish.

CHOPPING END

Standard equipment includes round, stainless steel feed pan, plastic stomper, knife and plate (3/8" diameter holes). Other plate sizes available.

ATTACHMENT TRAY SUPPORT

The Hobart Attachment Tray Support is an innovative solution to increase productivity. The tray is designed to aid in the use of the vegetable slicer. It is available for use with the HL120 and HL200 (A120, A200).

BOWL SCRAPER

To increase productivity, improve sanitation and product quality, the Hobart bowl scraper is an innovative solution. Available as an accessory or an upgrade for existing Hobart mixers. For primary and secondary size bowls.

POWER DRIVE UNIT

Listed by UL, Certified by NSF

Designed for use with the 9" Vegetable slicer. Provides maximum power and efficiency where high volume is desired.

Model PD-35 – 350 RPM, 1/2 H.P., 115/60/1
Model PD-70 – 700 RPM, 1/2 H.P., 115/60/1

LEGACY+[®]

THE LEGACY CONTINUES

The industry's **only Maximum Heavy-Duty mixers**. Giving you as much as **30% more mixing capacity**.

Legacy+[®] mixers give you **more** so you can **DO more**.

Do as much as **30% more mixing** in the same-sized bowl. That much added capacity is only possible with a Legacy+ mixer—because only Legacy+ mixers have the **PLUS System**: a powerful combination of three industry-leading technologies that give you **more**.

More power to completely incorporate and develop ingredients—and **more** functionality to make mixing jobs easier.

More reliability and **more** longevity—the only mixers you can depend on year after year.

Hobart Legacy+: Constantly advancing to give you **more** of what you need to be amazing in the kitchen.

Great food starts here.

The Hobart PLUS System gives you the power to do **more**. It's how Legacy+ mixers deliver as much as **30% more mixing capacity**. The PLUS System is an exclusive combination of technologies that provides **more** advantages—so you can do **more** in the same-sized bowl. It's why Legacy+ mixers are the industry's only **Maximum Heavy-Duty mixers**. The PLUS System provides **more** of the benefits you want.

5 BENEFITS OF VFDadvantage

- 1 Motor protection** 

If the mixer's rated capacity is exceeded, VFDadvantage safeguards the motor against overheating, helping ensure longer life and limited downtime.
- 2 Shift-on-the-Fly™ technology** 

VFDadvantage ensures convenient, efficient speed changes while the motor's running, so there's no need to stop and restart the machine. Pulse and jog as needed.
- 3 Soft start** 

By gradually delivering electricity to the mixer until it's at speed, VFDadvantage helps it last longer. Soft starting also minimizes splash-out.
- 4 Stir speed** 

An ultra-low stir speed is made possible by VFDadvantage, allowing ingredients to be incorporated slowly and thoroughly.
- 5 FastStop** 

Turn off an HL800 or HL1400 mixer and VFDadvantage brings all moving parts to a complete stop in less than three seconds.

VFD advantage variable frequency drive delivers **more** precision motor control and exceptional power. It ensures **more** production time and the best mixes, doughs and incorporation of ingredients in the industry. No other mixer technology does **more** to drive productivity and excellent results.

Maximum-capacity overhear protection lets you handle the heaviest jobs with **more** confidence. Our extreme-duty wiring and connections handle **more** power, reducing thermal cycling impact to ensure **more** production and less downtime.

Reinforced planetary shaft system drives maximum power into the bowl. You get **more** of the robust construction you expect from Hobart: an optimized shaft geometry and all-gear-driven transmission leverage **more** of the motor's precision tuning and high-capacity output.

HL1400

4 mixing speeds 📊

Handle virtually any mixing job.

SmartTimer™ feature ⭐👉

The SmartTimer counts time down and up: a helpful benefit when creating new recipes.

Quick-Release™ agitators ⭐📊👉

Quick and easy to remove. Pin locks agitator to shaft, eliminating the up/down play of bayonet-style agitators. The consistent agitator-to-bowl ratio delivers superior mixing performance.

Triple Interlock System with MagnaLock technology ⭐!

Prevents mixer from operating unless the bowl is fully up and locked in place and the bowl guard is secured.

Removable bowl guard 💧

Simple to remove without tools; dishwasher-safe for easy cleaning and sanitizing.

Electronic Bowl Lift (60 qt. models and above) or Ergonomic Bowl Lift (40 qt. model and below) 👉

Smoothly moves the bowl into mixing position.

Single-point bowl installation ⭐👉

Simplifies attaching the bowl to the mixer.

Swing-out bowl ⭐👉

Patented feature adds convenience and saves time.

Listed by UL, Certified by NSF

STANDARD FEATURES

- 5 quart capacity
- ½ H.P. Hobart designed motor
- 3 variable frequency drive gear transmission
- Three fixed speeds
- Large, easy-to-reach controls
- #10 taper attachment hub
- Manual bowl lift
- Cord and plug
- Bowl, beater, whip and dough hook included

Listed by ETL, Certified by NSF

STANDARD FEATURES

- Two heavy duty motors, one for the bowl and one for the dough hook
- Manual & automatic control functions
- Two 20 minute programmable timers
- Bowl reverse
- Bowl jog control
- Two fixed speeds
- Heavy duty stainless steel breaker bar
- Stainless steel bowl guard
- Heavy duty stainless steel spiral dough hook
- Mounted on casters for easy mobility

STANDARD FEATURES

PERFORMANCE

- 208-240/60/3
- Gear transmission
- 5,280 lbs. per/hour production capability
- Two-speed 2 H.P. motor
- Two stationary front legs and two rear legs with casters

SANITATION & CLEANING

- Stainless steel housing, hopper, and accessories

EASE OF USE

- High quality stainless steel cutting plates
- Full hopper size
- 6' power cord

OPERATOR ASSURANCE

- Triple interlock system

FP400i

MODEL NO.	FP400i
Motor H.P.	2 H.P. 200/400 RPM
Electrical Amps	208-240/60/3 7.5 Amps/6 ft. Cord
Overall Dimensions W x D x H	22¾" x 27¾" x 47½"
Net Weight/ Shipping Weight	139 lbs. 145 lbs.
3-Pack Blades	¼", ½" Slicer Plates; ¾" Shredder Plate – 1 Wall Rack
6-Pack Blades	Above plus ⅜", 7/32" Slicer Plates; ⅜" Dicer Plate - 2 Wall Racks
9-Pack Blades	Above plus 5/64" Julienne, 5/32" Julienne, 5/16" Shredder Plate - 3 Wall Racks

HOPPER OPTIONS

Stacking Cylinder

Best for: The stacking cylinder can prepare all types of products, both large and small. The Ergo-loop design provides a lever effect that also reduces the need for manual force when preparing large and hard products, such as root vegetables, cabbage and cheese.

Cutting Cylinder

Best for: To be able to easily cut long and narrow products vertically, and round products in a specific direction, the cutting cylinder is used. Good support for products such as cucumbers and leeks. It is also easy to "bunch" herbs together in the tube. This feeder has 4 tubes:

- Tube Dimensions**
- Tube 1:** 35 mm (1⅜")
 - Tube 2:** 60 mm (2²³/₆₄")
 - Tube 3:** 71 mm (2⁵¹/₆₄")
 - Tube 4:** 71 mm (2⁵¹/₆₄")

Bulk Feed Hopper and Cylinder

Best for: The bulk feed hopper enables continuous filling by the bucket load for preparation of primarily round products. Capacity is very high because the machine runs continuously and is therefore extremely time-efficient. The FP400i with a Feed Hopper can be beneficially included in a continuous production flow.

STANDARD FEATURES

PERFORMANCE

- 5 H.P. motor
- Stainless steel mixing baffle with pour-through center shaft
- Two blade cut/mix knife
- Knead/mix attachment

SANITATION & CLEANING

- 45-quart capacity stainless steel bowl with pouring lip
- Durable steel base with powder coated finish
- Counterbalanced clear Lexan bowl cover with stainless steel support bar
- Polypropylene strainer basket

EASE OF USE

- Magnetically operated start/stop push button switches
- 5-minute timer with "Hold" & "Jog" settings
- Bowl tilt lever
- 6' power cable, plug and receptacle

OPERATOR ASSURANCE

- Electromechanical interlocks

RETURN GOODS POLICY

Baxter reserves the right to accept or reject return for credit requests for any Baxter items shipped as ordered. Any units or accessories accepted for return are subject to the prevailing restocking, reconditioning and freight charges in effect at time return is authorized. Absolutely

no units or accessories will be accepted without formal authorization by the Company. Address all requests in writing to the Customer Care Department, Hobart, 701 S Ridge Avenue, Troy, Ohio 45374-0001.

WARRANTY (ALL SERIALIZED MODELS MUST HAVE START-UP PERFORMED BY AN AUTHORIZED SERVICER TO INITIATE WARRANTY)

ITW Food Equipment Group LLC ("ITW FEG") warrants new Baxter-branded products and certain other products sold by ITW FEG under other brand names whose specifications or other product documentation expressly reference this Warranty (collectively, the "Products") to the original end-user of such Product ("Owner") when installed within the United States, against defective material and workmanship for one (1) year from the date of original installation (the "Warranty Period"). In no event shall the Warranty Period commence later than 3 months from the date of initial delivery of the Product to the common carrier by ITW FEG unless otherwise agreed upon by ITW FEG in writing. ITW FEG will, as ITW FEG's sole liability hereunder, and as the Owner's exclusive remedy, during normal working hours, through one of its branches or authorized servicing outlets, repair or replace, at its option, including service and labor, all parts and/or components found to be defective and subject to this Warranty.

This Warranty does not apply to damage resulting from fire, water, burglary, accident, abuse, misuse, acts of God, attempted repairs or improper installation by unauthorized persons. Failure to follow use, care, or maintenance instructions in the Product's Instruction Manual or in any other product documentation provided with the Product will automatically void this Warranty.

This Warranty is subject to reasonable travel limitations and costs as periodically updated by ITW FEG. Certain parts and components within the Products, expendable by nature and that need to be replaced frequently, are not covered by this Warranty. Any necessary repairs and/or replacements of these expendable parts are the Owner's sole responsibility and cost.

THIS WARRANTY EXCLUDES ALL ORAL, STATUTORY, EXPRESS OR IMPLIED WARRANTIES WHICH MAY BE APPLICABLE TO ITW FEG, INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE. ITW FEG SHALL NOT BE LIABLE, AND OWNER WAIVES ALL CLAIMS AGAINST ITW FEG, FOR INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, DOWN TIME, LOST PROFITS OR COMMERCIAL LOSSES, WHETHER OR NOT BASED UPON ITW FEG'S NEGLIGENCE OR BREACH OF WARRANTY OR STRICT LIABILITY IN TORT OR ANY OTHER CAUSE OF ACTION. ITW FEG WILL NOT BE LIABLE TO OWNER FOR ANY LOSS, DAMAGE, OR INJURY TO PERSONS OR PROPERTY RESULTING FROM THE HANDLING, STORAGE, TRANSPORTATION, RESALE, OR USE OF ITS PRODUCTS. IN NO EVENT WILL ITW FEG'S LIABILITY UNDER THIS WARRANTY OR IN CONNECTION WITH ITS PRODUCTS OR SERVICES EXCEED THE PURCHASE PRICE OF THE SPECIFIC PRODUCTS OR SERVICES AS TO WHICH THE CLAIM IS MADE. ITW FEG neither assumes nor authorizes anyone else to assume for it any obligation or liability in connection with the Product, its sale, operation, or use, other than as stated herein.

This Warranty is conditioned upon ITW FEG receiving notice of any non-conformance subject to this Warranty within thirty (30) days of its discovery by Owner.

EXCLUDED WARRANTY SERVICE

The following are not included in this Warranty, and ITW FEG shall have no obligation to Owner or anyone else for repair, replacement or refund with regard to any of the following. Should someone request, and ITW FEG choose to provide such, services, additional charges shall apply. If Owner requests replacement parts and/or repair services under this Warranty and ITW FEG determines that such request is not covered hereunder (or fits under one of the following exclusions), Owner agrees to pay ITW FEG (or its affiliates or subcontractors) for all following fees incurred in connection therewith at ITW FEG's (or such affiliate's or subcontractor's) standard rates and charges as in effect at that time.

5. After Hours and Weekend Emergency Coverage. This Warranty provides for replacement parts and repair services during normal business hours with commercially reasonable response times by ITW FEG. Owner is responsible for all fees stemming from emergency Calls received by ITW FEG on weekends, holidays, or Monday through Friday, between 5pm-8am local time.
6. Maintenance Inspections. Preventative or preemptive calls that identify potential service problems on a unit prior to occurrence are not covered by this Warranty.
7. Supply Lines. Opening or closing of, supply lines, valves, or switching of electrical supply current is not covered by this Warranty.
8. Adjustments. Adjustments to Product appearance requested by Owner are not covered by this Warranty.
9. Customer Feature Upgrades. Feature upgrades, including (nonmandatory) firmware, software, label format, or graphics, are not covered by this Warranty.
10. Customer Network. Customer network related issues for connected devices (when applicable) are not covered by this Warranty.
11. Commercial Use Only. ITW FEG does not recommend or authorize the use of any Product in a non-commercial application, including, but not limited to, residential use. This Warranty does not apply to, and shall not cover, any Product that is installed or used in any way in any residential or non-commercial application. No warranties, express or implied, are provided to any residential, consumer or non-commercial purchaser or owner of the Products.

1. Expendable Parts. Parts and components that are expendable by nature or listed or referenced in any "Expendable Parts" table or list in any product documentation accompanying the Product are not covered by this Warranty, and any labor and/or travel charges related to the replacement of such parts are Owner's responsibility.
2. Expedited Parts. For necessary replacement parts that are not available with the service technician at the time a warranty service call is made, ITW FEG will acquire such parts through ground freight. Owner may request expedited parts at its cost through next-day air shipment.
3. Accidental Damages. Calls resulting from physical damage by operators are not covered by this Warranty.
4. Water Quality Related Damages. Calls resulting from damage due to improper water conditions are not covered by this Warranty. Failures due to not properly cleaning the unit are not covered by this Warranty. Failure of Owner to provide proper water quality or water pressure to the Product as required by Product's specifications and/or Instructions Manual is not covered by this Warranty. Failure of Owner to maintain water treatment equipment is not covered by this Warranty.

WARRANTY (OV500, OV520, AND OV310 HEAT EXCHANGER TUBES)

In addition to the standard Baxter one (1) year parts and labor warranty, Baxter agrees to warrant the OV500, OV520, or OV310 Heat Exchanger Tubes for an additional nine (9) years from the date of original installation. This additional coverage applies to the OV500, OV520, or OV310 Heat Exchanger Tubes only and the associated labor to replace a failed Tube Assembly. This warranty is conditioned upon Baxter receiving notice of any defect subject to this warranty within thirty (30) days of its discovery by Owner or when Owner should reasonably have known of the defect.

THE FOREGOING SHALL CONSTITUTE THE EXCLUSIVE REMEDY OF THE PURCHASER OR OTHER PARTY SEEKING TO ENFORCE THE WARRANTY AND THE EXCLUSIVE LIABILITY OF HOBART.

THE ABOVE WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER EXPRESS WARRANTIES WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED. NO WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE SHALL APPLY.

This warranty does not apply to damage resulting from fire, water, burglary, accident, abuse, misuse, acts of God, attempted repairs or improper installation by unauthorized persons. Failure to follow use, care, or maintenance instructions in your Instruction Manual may void this warranty.

No agent, dealer, employee or representative of Hobart or Baxter nor any installer or other person is authorized to modify the Limited Warranty in any respect. The invalidity of all or a part of any of the provisions of the Limited Warranty shall not affect or invalidate any other provision of the Limited Warranty.

EXPORT WARRANTY

Baxter's standard warranty does not apply to Export Sales. Rather, for a period of one (1) year from date of original installation not to exceed eighteen (18) months from date of shipment from factory, Baxter:

- There are no oral, statutory or implied warranties applicable to Baxter, including but not limited to any implied warranty of merchantability or fitness for any particular purpose which extend beyond the description on the face hereof.
- Dealer agrees to assume full responsibility for the installation and correction of Baxter products purchased for Export Sales, including all expenses.

- will replace, F.O.B. shipping point, shipping charges prepaid and add, any defective parts normally subject to warranty.
- will not cover the cost of any packing, freight, or labor; such costs being the sole responsibility of Dealer.

Certified by NSF, Listed by UL (electric), CSA Design Certified (gas)

STANDARD FEATURES

HEC Electric Models

- Stainless steel front, sides and top, painted legs
- Solid state temperature controls adjust from 150° to 500° F
- 60 minute electric timer with buzzer
- Energy-efficient, 2-speed, ½ H.P. motor; preheats to 350° F in 7 minutes
- Includes porcelain interior; six-sided insulation gives energy efficiency

HGC Gas Models

- Stainless steel front, sides and top, painted legs
- 50,000 BTU/hr. burner per section
- ½ H.P. two speed oven blower motors; 115/60/1 with 6' cord and plug, 8 amps
- Solid state temperature controls adjust from 150° to 500° F
- 60 minute timer with audible alarm
- ENERGY STAR® certified

Special Gas and Electric Models

- Computer controls with digital time and temperature read-outs – “D” models
 - Shelf ID
 - Cook & hold cycle
 - Timer sets cook time from one minute to 24 hours
 - 99 programmable preset buttons
- Extra Deep – “X” models

CUH/CUL

STANDARD FEATURES

- 24 racks per hour
- .84 gallons of water per rack
- Hot water sanitizing (CUH model only)
- Chemical sanitizing (CUL model only)
- Top-mounted user interface with digital temperature display
- 2-minute cycle with optional extended cycle
- 14.46" door opening
- Snap-in, revolving upper and lower anti-clogging wash & rinse arm; low-profile, single-arm design
- Integrated booster heater capable of 70°F rise (CUH model only)
- Removable, 3-part stainless steel scrap screen
- Soft start
- Automatic pumped drain
- Automatic fill
- Service diagnostics with error notifications
- Delime notification and cycle
- Chemical pumps standard
- Sanitizer sensing indicator standard (CUL model only)
- Electric tank heat
- Two dishracks – one peg and one combination type

CDH

CDL

STANDARD FEATURES

- Top mounted digital display
- Pumped drain
- 3-phase single point connection standard (CDH model only)
- 4-sided door
- Recirculating design
- Hot water sanitizing with pumped rinse (CDH model only)
- 51 racks per hour at .86 (CDL) & .73 (CDH) gallons per rack
- 18" pillarless opening
- Chemical sanitizing with built-in chemical pumps (CDL model only)
- On board Sense-A-Temp™ booster (CDH model only)
- 1 standard cycle with optional extended cycle
- Delime notification and cycle
- Chemical pumps standard (CDL model only)
- Electric tank heat
- Door actuated start

LXGePR
(Short Legs)

LXGePR
(Long Legs)

STANDARD FEATURES

- Hot water or chemical sanitation
- Steam elimination and Energy Recovery (LXGeR model only)
- 70°F-rise Sense-A-Temp™ booster heater (LXGeR model only)
- PuriRinse cycle (potable water rinse to remove chemical residue) (LXGePR model only)
- Top mounted controls with digital cycle/temperature display and advanced service diagnostics
- Deluxe soil management system with large removable stainless steel scrap screen and secondary fine strainer
- Revolving upper and lower anti-clogging wash arms
- Snap in interchangeable upper and lower rinse arms
- 12" door opening
- Soft Start
- ¾" Pressure regulator standard
- Pumped rinse and pumped drain
- Low-chemical alerts – audible and visual
- Auto Clean cycle – washes down inside of machine at shutdown
- Chemical Pumps standard – detergent, rinse aid, delimer plus sanitizer for chemical machines
- Flexible fill and drain hoses provided
- Electric tank heat
- One wine rack

Note: LXGeR and LXGePR are offered in ADA compliant models standard on 3" base

Note: FREE start up conducted on Advansys™ models by Hobart Service

LXeC/LXeH STANDARD FEATURES

- Available in hot water or chemical sanitizing.
- Sense-A-Temp™ booster heater capable of 70° rise, provided on LXeH models
- 32 racks per hour – LXeH
- 34 racks per hour – LXeC
- .74 gallons of water per rack
- 17" door opening
- Soft Start
- Low chemical alert indicators
- Chemical pump, includes “auto-prime”
- Automatic Delime notification and cycle
- Interchangeable revolving upper and lower anti-clogging wash arms: Revolving upper and lower rinse arms
- Top mounted controls with digital cycle/temperature display and advanced service diagnostics
- Removable stainless steel scrap screen
- Pumped Rinse and Pumped Drain
- Includes two dishracks- one peg and one combination
- Chemical pumps standard

LXeR STANDARD FEATURES

- Steam Elimination and Energy Recovery
- Sense-A-Temp™ booster heater capable of 70° rise
- Custom cycle selection – light, normal, heavy
- NSF certified pot and pan cycle on heavy cycle
- Racks per hour: Light – 20; Normal – 24; Heavy – 13.
- 17" door opening.
- Soft Start
- Pumped Rinse and Pumped Drain.
- Chemical pumps standard, includes “auto-prime” .
- Low chemical alert indicators.
- Automated delime cycle – includes booster
- Removable stainless steel scrap screen.
- Interchangeable revolving upper and lower anti-clogging wash arms: Revolving upper and lower rinse arms.
- Top mounted controls with digital cycle/temperature display and advanced service diagnostics.
- Includes two dishracks – one peg and one combination

CL44eN-VL

CL44eN-EGR/CL44eN-ADV

STANDARD FEATURES

- 202 to 345 racks per hour
- Drain water energy recovery (EGR & ADV models only)
- Automatic soil removal (ASR models only)
- Opti-Rinse™ system
- Large double door opening for ease of cleaning (BAS & VL models only)
- Drain water tempering kit (EGR & ASR models only)
- Internal stainless steel pressure-less 30 KW booster heater (EGR, ADV & VL models only)
- Double doors are insulated & hinged with door interlock switches
- 19.5" chamber height opening (accepts sheet pans)
- Top mounted micro-processor control module
- Energy saver mode (programmable auto-shut down)
- Manager activated low temperature alert
- NSF rated configurable pot and pan dwell mode
- Configurable "intelligent" delime alert notification
- Service diagnostics
- Stainless steel anti-clogging wash arms
- Removable pump intake screen
- Stainless steel self-draining pump and impeller
- Single, sloping scrap screen and deep scrap basket
- Door actuated drain closure
- Convertible hot water or low temp final rinse (BAS models only)
- Vent fan and booster heater control
- ENERGY STAR® Certified

Side Loading Option SL23e and SL30e

An accessory to adapt any Hobart CLeN Dishwasher to a corner or side loading operation. Adds 23" or 30" to length of machine. Here is a way to save up to 20 square feet or more in your dishroom layout.

Racks of soiled dishes, trays, silverware, etc. are automatically indexed 90° from the soiled dishtable into the dishwasher by means of a stainless steel reciprocating, center-indexing pawl.

Stainless steel. 100 lbs. shipping weight.

Built-In Electric Booster Heater

A built-in 15-30 KW, electric, stainless steel, pressure-less (atmospheric pressure), pre-wired and pre-plumbed electric booster heater is an option for all CLeN models. This built-in booster heater represents the best alternative for our customer, as it is designed to deliver the volume of water required by Hobart's exclusive Opti-Rinse™ system. This feature saves installation cost and coordination, process for ordering equipment, valuable floor space, and operator training. The booster heater is also designed to simplify de-liming procedures, which will promote a longer life cycle as compared to other freestanding booster heaters.

30 KW built-in booster heater standard on all CLeN-EGR models.

Booster heaters on CLeN models ship from the factory as 30 KW and are field convertible to 15KW. Booster not field convertible on CLeN-VL models.

DDU38e Direct Drive Unloader

DDU38e shown with CL44eN Dishwasher

An accessory which adapts to any CLeN that automatically discharges the racks at a 90° angle from the operation of the machine onto a clean table. The DDU38e is driven by the conveyor drive of the CLeN and does not require an additional electrical source. The DDU38e only adds 38" to the overall length of the machine, but it can save nearly 20 square feet of floor in your dishroom. Stainless steel construction with a 1½" drain fitting. DDU38 not available on CLeN-VL models.

Blower-Dryer Option for CLeN and CLeN-EGR

The most energy-, space- and performance-efficient conveyor blower dryer we've ever made.

Using 76% less energy and 45% less space than prior models, the CLeN blower dryer is the perfect finishing touch to one of the most energy-, water-, labor- and space-efficient conveyor warewashers in the industry, Hobart's CLeN and CLeN-EGR. Blower-Dryer not available on CLeN-VL models.

STANDARD FEATURES

- Polished stainless throughout; sinks, drainboards, splashes and rolled rims are 14-gauge
- Heavy-duty centrifugal pump with 2.5" diameter intake, 2" diameter outlet, and 300+ GPM
- 2 H.P. totally enclosed wash pump motor with permanently sealed bearings
- Stainless steel pump and impeller
- Self-draining pump
- Low water protection for wash pump motor with inherent motor protection
- 8-1½" angled stainless steel wash nozzles
- 11" high x 2½" deep backsplash
- On/Off wash pump motor switch
- Options include wash sink heater, faucets, pre-rinse sprays, lever drains, wash sink sump strainer, automatic shutdown timer, auto fill, wash tank separator, utensil basket, overshef, undershef, sheet pan rack and disposer swirl piping
- Disposer controls with or without single point electrical connection
- Available in left-to-right and right-to-left configurations
- Removable, welded H frame leg sets and adjustable bullet feet
- Detachable and adjustable height cross rails
- Dual inlet strainers

UNIT SIZING SELECTIONS:

- **Soiled and Clean End Edges:**
Hemmed, rolled, end splash, dishmachine connection
- **Soiled and Clean Drainboards:**
12", 18", 20", 24", 30", 36", 42", 48", 54", 60"
- **Disposer Cones:**
15" cone – 36" minimum soiled drainboard required
18" cone – 42" minimum soiled drainboard required
- **Scrappers:**
20", 36", 36" scrapper for disposer
(36" scrapper may include 7" disposer flange)
- **Wash Sink:**
30", 32", 36", 42", 48", 54", 60"; available as wash sink only for "weld-in" application
- **Rinse Sink:**
15", 18", 20", 24", 30", 36"
- **Sanitizer Sink:**
18½", 20", 24", 30", 36"
- **Electrical Specifications:**
208-240/60/3, 480/60/3

Custom configurations to fit your application can be designed. Contact your Hobart representative for further information.

1. MACHINE RATINGS Racks per hour ratings represent the maximum mechanical capacity of each dishmachine. For average conditions, base estimate on approximately 70% of the machine capacity and average rack capacity of:

- 16-18 9" Dinner Plates Per Rack
- 25 Water Glasses Per Rack
- 16 Coffee Cups Per Rack
- 100 Pieces of Flatware Per Rack

All Racks 20" x 20".

Production of clean dishes will vary with factors such as: the type and efficiency of the dishroom layout, traffic flow, amount, type and length of time the food soil has remained on the dishes, relative hardness of water, industry of the dishmachine operator, fluctuations in flow of soiled dishes to the dishroom & so on.

Your Hobart representative will be glad to help you select the right dishmachine to fit your particular warewashing requirements.

2. MOTORS & PUMPS Highly efficient motors, pumps (Weir Tested) and wash systems – designed for each particular model – assure the proper volume of water at the required pressure.

3. PUMP CAPACITY Volume of water circulated over dishes is not water consumption. When tank has been filled, water is circulated by the pump.

4. HEATING EQUIPMENT Supplied to keep the water hot in the tank, or tanks, of the machine. When electric heat is specified, a disconnect switch (NOT furnished by Hobart) is recommended. The disconnect switch must be supplied and installed by the electrical contractor and connected in the heater electrical supply circuit ahead of machine at the time of installation.

5. RINSE WATER Adequate hot rinse water is essential to operation. Actual consumption of hot water will vary with pressure of the supply, speed at which machine is operated, and the general dish table layout. In estimating hot water requirements the following points should be considered:

- a. Pressure – A flowing pressure of 20 lbs. is ideal. “Flowing Pressure” is indicated on a pressure gauge installed at the inlet side of final rinse valve and read when rinse water is flowing. Pressure regulators are recommended when the flowing pressure exceeds 25 lbs.
- b. Rate of flow – The figures indicate relatively high momentary requirements of the models on which operation is intermittent (AM Series). For these models, ample storage capacity should be included in order that the “non-flowing” periods may be used for building up the supply.
- c. Temperature – NSF Standards require final rinse of 180° F minimum for hot water sanitization machines registered on the final rinse thermometer. Where regular hot water supply at the machine is below 180° F, a booster heater is recommended.

Please refer to booster sizing charts for proper booster size.

To assure prompt handling of your order, include complete data on the following:

USER’S NAME, ADDRESS AND ZIP CODE

SHIPPING DATE REQUIRED

For CLeN, CLeN-EGR and CLeN-ADV Dishwashers:

- Model Number
- Direction of Operation – Right to Left or Left to Right
- Electrical Specifications – Voltage • Cycle • Phase

- Type of Heat:
 - Electric
 - Gas: Natural or LP Gas
 - Steam: Flowing Steam Pressure

For FT Dishwasher:

- Model Number
- Direction of Operation – Right to Left or Left to Right
- Electrical Specifications – Voltage • Cycle • Phase
- Type of Heat:
 - Electric
 - Steam: Flowing Steam Pressure, Type: Coils

For Final Rinse Water Booster:

- Electric
- Steam
 - Model Number
 - Flowing Steam Pressure
 - Incoming Water Temperature

Include list of desired accessories.

Operator training videos are available at extra cost on selected machines.

Contact your local Hobart office for complete information.

Listed by ETL

STANDARD FEATURES

- **Bearings** are permanently lubricated.
- **Dual Directional Grinding** – Automatic reversing of disposer’s direction of rotation when installed with Control Group 5 or 6. Increases life and efficiency of grinding elements by dispersing the wear factor. Will reverse unit, freeing it up in case a jamming situation occurs.
- **Cones** – All models FD4/50 through FD4/500 fit the same large 7 inch throat opening diameter. Cones of hydraformed stainless steel, 18 inch bowl diameter is standard; 15 inch is optional. Both feature an optional dual directional water inlet for flushing waste into the disposer.
- **Vinyl Isolating Ring** eliminates metal to metal contact and prevents vibration and noise transmission. Sink and trough mounting accessories are also available.
- **Adapters** are available to install Hobart Disposers on existing Cones.

- Magnetic Contactors
 - Pushbutton Start and Stop
 - Automatic Reversing
 - Time Delay for water after shutoff
 - Line Disconnect
 - Solenoid Valve
 - Made from NEMA 4x Enclosure

RETURN GOODS POLICY

Hobart reserves the right to accept or reject return for credit requests for any Hobart items shipped as ordered. Any units or accessories accepted for return are subject to the prevailing restocking, reconditioning and freight charges in effect at time return is authorized. Absolutely no units or accessories will be accepted without formal authorization by the Company. Address all requests in writing to the Customer Care Department, Hobart, 701 S Ridge Avenue, Troy, Ohio 45374-0001.

WARRANTY

ITW Food Equipment Group LLC ("ITW FEG") warrants new Hobart-branded products and certain other products sold by ITW FEG under other brand names whose specifications or other product documentation expressly reference this Warranty (collectively, the "Products") to the original end-user of such Product ("Owner") when installed within the United States, against defective material and workmanship for one (1) year from the date of original installation (the "Warranty Period"). In no event shall the Warranty Period commence later than 3 months from the date of initial delivery of the Product to the common carrier by ITW FEG unless otherwise agreed upon by ITW FEG in writing. ITW FEG will, as ITW FEG's sole liability hereunder, and as the Owner's exclusive remedy, during normal working hours, through one of its branches or authorized servicing outlets, repair or replace, at its option, including service and labor, all parts and/or components found to be defective and subject to this Warranty.

This Warranty is subject to reasonable travel limitations and costs as periodically updated by ITW FEG. Certain parts and components within the Products, expendable by nature and that need to be replaced frequently, are not covered by this Warranty. Any necessary repairs and/or replacements of these expendable parts are the Owner's sole responsibility and cost.

This Warranty is conditioned upon ITW FEG receiving notice of any non-conformance subject to this Warranty within thirty (30) days of its discovery by Owner. This Warranty

does not apply to damage resulting from fire, water, burglary, accident, abuse, misuse, acts of God, attempted repairs or improper installation by unauthorized persons. Failure to follow use, care, or maintenance instructions in the Product's Instruction Manual or in any other product documentation provided with the Product will automatically void this Warranty.

THIS WARRANTY EXCLUDES ALL ORAL, STATUTORY, EXPRESS OR IMPLIED WARRANTIES WHICH MAY BE APPLICABLE TO ITW FEG, INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE. ITW FEG SHALL NOT BE LIABLE, AND OWNER WAIVES ALL CLAIMS AGAINST ITW FEG, FOR INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, DOWN TIME, LOST PROFITS OR COMMERCIAL LOSSES, WHETHER OR NOT BASED UPON ITW FEG'S NEGLIGENCE OR BREACH OF WARRANTY OR STRICT LIABILITY IN TORT OR ANY OTHER CAUSE OF ACTION. ITW FEG WILL NOT BE LIABLE TO OWNER FOR ANY LOSS, DAMAGE, OR INJURY TO PERSONS OR PROPERTY RESULTING FROM THE HANDLING, STORAGE, TRANSPORTATION, RESALE, OR USE OF ITS PRODUCTS. IN NO EVENT WILL ITW FEG'S LIABILITY UNDER THIS WARRANTY OR IN CONNECTION WITH ITS PRODUCTS OR SERVICES EXCEED THE PURCHASE PRICE OF THE SPECIFIC PRODUCTS OR SERVICES AS TO WHICH THE CLAIM IS MADE. ITW FEG neither assumes nor authorizes anyone else to assume for it any obligation or liability in connection with the Product, its sale, operation, or use, other than as stated herein.

EXCLUDED WARRANTY SERVICE

The following are not included in this Warranty, and ITW FEG shall have no obligation to Owner or anyone else for repair, replacement or refund with regard to any of the following. Should someone request, and ITW FEG choose to provide such, services, additional charges shall apply. If Owner requests replacement parts and/or repair services under this Warranty and ITW FEG determines that such request is not covered hereunder (or fits under one of the following exclusions), Owner agrees to pay ITW FEG (or its affiliates or subcontractors) for all reasonable fees incurred in connection therewith at ITW FEG's (or such affiliate's or subcontractor's) standard rates and charges as in effect at that time.

- Expendable Parts.** Parts and components that are expendable by nature or listed or referenced in any "Expendable Parts" table or list in any product documentation accompanying the Product are not covered by this Warranty, and any labor and/or travel charges related to the replacement of such parts are Owner's responsibility.
- Expedited Parts.** For necessary replacement parts that are not available with the service technician at the time a warranty service call is made, ITW FEG will acquire such parts through ground freight. Owner may request expedited parts at its cost through next-day air shipment.
- Accidental Damages.** Calls resulting from physical damage by operators are not covered by this Warranty.
- Water Quality Related Damages.** Calls resulting from damage due to improper water conditions are not covered by this Warranty. Failures due to not properly cleaning the unit are not covered by this Warranty. Failure of Owner to provide proper water quality or water pressure to the Product as required by Product's specifications and/or Instructions Manual is not covered by this Warranty. Failure of Owner to maintain water treatment equipment is not covered by this Warranty.
- After Hours and Weekend Emergency Coverage.** This Warranty provides for replacement parts and repair services during normal business hours with commercially reasonable response times by ITW FEG. Owner is responsible for all fees stemming from emergency Calls received by ITW FEG on weekends, holidays, or Monday through Friday, between 5pm-8am local time.
- Maintenance Inspections.** Preventative or preemptive calls that identify potential service problems on a unit prior to occurrence are not covered by this Warranty.
- Supply Lines.** Opening or closing of, supply lines, valves, or switching of electrical supply current is not covered by this Warranty.
- Adjustments.** Adjustments to Product appearance requested by Owner are not covered by this Warranty.
- Customer Feature Upgrades.** Feature upgrades, including (nonmandatory) firmware, software, label format, or graphics, are not covered by this Warranty.
- Customer Network.** Customer network related issues for connected devices (when applicable) are not covered by this Warranty.
- Commercial Use Only.** ITW FEG does not recommend or authorize the use of any Product in a non-commercial application, including, but not limited to, residential use. This Warranty does not apply to, and shall not cover, any Product that is installed or used in any way in any residential or non-commercial application. No warranties, express or implied, are provided to any residential, consumer or non-commercial purchaser or owner of the Products.

EXPORT WARRANTY

Hobart's standard warranty does not apply to Export Sales. Rather, for a period of one (1) year from date of original installation not to exceed eighteen (18) months from date of shipment from factory, Hobart:

- will replace, F.O.B. shipping point, shipping charges prepaid and add, any defective parts normally subject to warranty.
- will not cover the cost of any packing, freight, or labor; such costs being the sole responsibility of Dealer.
- There are no oral, statutory or implied warranties applicable to Hobart, including but not limited to any implied warranty of merchantability or fitness for any particular purpose which extend beyond the description on the face hereof.
- Dealer agrees to assume full responsibility for the installation and correction of Hobart products purchased for Export Sales, including all expenses.

STANDARD SERVICE (T&M)

Out of warranty?
Fix it fast and fix it right the first time to avoid additional downtime costs.

MAINTENANCE INSPECTIONS

Stop expensive breakdowns before they start. Maintenance inspections allow you to know ahead of time if a breakdown is on the horizon.

HOBERT CARE

Our offerings start with Hobart Care, an annual service plan designed to deliver the most essential service to help keep your costs under control while minimizing equipment downtime.

HOBERT ASSURANCE

Guaranteed response times and planned annual maintenance ensure that your food equipment will stay up and running with minimal downtime.

HOBERT PROSURANCE™

Our most comprehensive plan includes planned annual maintenance, unlimited service calls, and replacement of expendable parts.

Benefits of Choosing an Agreement with Hobart Service

- ✓ Fixed payments can be budgeted ahead of time and cost less than comparable equipment repairs.
- ✓ Flexible payment options - pay up front or over time.
- ✓ Higher priority for emergency repairs than for non-covered equipment.
- ✓ Option to customize response times and/or overtime coverage.
- ✓ Identification of potential issues before they happen with preventive maintenance.
- ✓ Reduced downtime.
